DESIGN TIME

Rachel Armstrong

Q : What types of window coverings are in style right now? Not blinds,

pets from stains and from wearing down. If reselling your home is in the near future, rugs can take the abuse so when it is time to show your house, the rug can be rolled up and the carpet still looks great.

Q: I am wondering about painting my interior doors a color other than white. I have white trim all throughout my house, but I would like to change the door color and I am looking for suggestions whether an off-white/ivory would be okay without painting the trim, too.?

A: Painting interior doors is a great way to add an accent color or texture to a room. Trim and doors no longer have to match, but the colors should have enough contrast so the doors do not appear dingy. If the interior doors of a home are just flat and ordinary a faux finish can be added to the door to create interest and texture. Open the doors to your creativity and then paint them.

Q: Is it better to keep lots of personal pictures out of the family room? Is it more appropriate to have the majority of the family photos in your bedroom instead of throughout the house? I've seen

houses that use personal pictures to decorate everywhere. It just seems cluttered to me, what are your thoughts?

A: Decorating with personal photos can be done in various ways. Small pictures, all frames individually spread throughout a home will not have the same effect as displaying all your favorite photos in one designated area, for example, a collage on the hallway wall or on the stairway wall. Collections, of any kind, make a greater impact when displayed together. This is true for pictures as well. Another option to consider, may be, to gather all the small photos from around the house and display them in a curio cabinet, perhaps in the foyer. Families are special, we should not have to hide our precious photos in the bedroom. Keeping them grouped together where they can be easily viewed and appreciated will help eliminate the feeling of the photos adding to the clutter.

Subject: Kids Resource Center

In Georgia over 20,000 children are neglected or abused each year. Jackson County has nearly 100 kids in foster care, Banks and Barrow add even more. There aren't enough foster care homes to handle existing needs and the numbers are increasing each year. Often alone and afraid, these children need a safe, warm, and nurturing place where they will get adequate medical care, food, clothes, and counseling to heal the scars not so easily seen. Christian Outreach Ministry, Inc. is on an ambitious journey to do just that for our kids in Jackson, Banks, and Barrow Counties. To this end, it recently acquired property in Nicholson, Georgia for a Kids Resource Center. The building is nice but in need of substantial renovation. When completed, the Center will serve our children well.

Christian Outreach Ministry was officially incorporated as a 501c (3) private, non profit, organization in the State of Georgia on March 26, 1999. It was created out of a passion to provide a "hands up" assistance to citizens disadvantaged by financial emergencies and other life challenges.

The fundamental underpinning of our effort to make the Kids Resource Center a reality is the belief that it takes a "village" to successfully soften the unfortunate circumstances that come into the lives of too many of our children. That is why we are taking a partnership approach to generate the resources (money, skilled labor, and materials) needed to renovate the facility in accordance with relevant building codes and licensing requirements. In this vein, I am happy to announce that Rising Families, Inc., a 501 c (3) private non profit organization, has agreed to help. However, much more is needed. If you, or your church group, civic organization or business would like to donate time or resources please call 706-335-6084, or e-mail us christianoutreach@msn.com.

God Bless
